

Nina

Acoustic guitar, sax, cello, drums and choir

Nina
I see some tears in your brown eyes
I say: "Please, don't cry"

So I sing this love song
So I sing this love
This song of love
Just for you

Nina
Be sure that you are my sunshine
You aren't alone

So I sing this love song
So I sing this love
This song of love
Just for you

My lonely girl

Piano, cello, drums and strings

She doesn't know in which bed she will lie
She doesn't know which food she will buy
She knows that she's walking on the way
She has a hard life, I don't care anyway

My girl, she's satisfied
I kiss her lips and make her mind

She spends her money in a dress she doesn't fit
And every night, she's on a car's black seat
The girl in a rolls-royce, it's alright to me, yeah
While she brings me money, I just wait and see

My girl, she's satisfied
I kiss her lips and make her mind

She comes alone when her job's done
Looks at the mirror and finds nothing at home
She cries to the world in her bed every night
Then she turns and sleeps, holding the pillow tight

My girl, she's satisfied
I kiss her lips and make her mine

I love you

Guitar, bass and drums

Yeah, I love you

I do know you don't love anymore
I don't care about it, want to say it loudly
I love you

Yeah, I love you

You do know that I never lielt's the only way
that I found to say
That I love you

Yeah, I love you

Things I believe in I don't believe in
anymoreI came only to say it, wanted to
say it before
I love you

Lucille

Oboe, acoustic guitar, contrabass
and tambourine

Lucille, my Lucille
How can you whisper those things?
I have only one love
And she is you, Lucille

How many times have these golden clouds
crossed through the sky?
How many pairs of wings does
a bird need to fly?

Lucille, my Lucille
How can you whisper those things?
I have only one love
And she is you, Lucille

How many hearts should one man have
to love his girlfriend?
How much love does one man need
to love her 'til the end?

There's a party happening around the swimming pool
C'mon over there, baby, please, don't be so cruel
This place is so nice, this place is so well
I'll come every time on Morrison Hotel

Time to die

Piano, viola, cello, contrabass,
strings and drums

They ask me why, they ask me how
I'm not ready to call
My eye, my brain, I can't control them
I'm not ready at all

I'm crying behind the wall
But I'm too proud to fall

Eyes like sweet tangerine pies
I think so
Skin like dark blue skies
I think you know

They always know the place I'll go
They always know the place I'll go

They are always telling me lies
But I don't want to cry
But I know it's time to die
Bye, bye, bye, bye

I know it's time to die
I don't want to cry

Morrison Hotel

Piano, bass and drums

"President" Johnson has already gone
"Watergate" Nixon plays an old sax trombone
Washington's so old, baby, don't be so square
I ain't got a baby and you know I don't care

There's a party happening around the swimming pool
C'mon over there, baby, please, don't be so cruel
This place is so nice, this place is so well
I'll come every time on Morrison Hotel

Tell me, baby blue, what's happening here?
I became a lover, I ain't got a fear
Let's running fast in on a ninety-mile car
C'mon, baby, run, the hotel is not so far
You've got a running gun,
you've got your babe free
If you are too hungry, you can climb an apple
tree
This place is so nice, this place is so well
I became a lover, baby, on Morrison Hotel

I won't be your lover

Guitars, bass, drums and choir

No, I won't be your lover anymore

Darling, there's just one thing
That will mean everything
And I'd like to tell you
It will hurt you like a sting

No, I won't be your lover anymore

I'm breaking the chains
It's all over, all over
Goodbye, my pains
It's all over, all over again

No, I won't be your lover anymore

Remember when we were one
Thought it was going through the time
But you left me, I don't know why
You will not see me anytime

No, I won't be your lover anymore

Kind of love

Harmonica, eletric guitar, bass and drums

Baby, yes, I need to know if you love me so
I said: "baby, what I want you to
care about, you know, it's my soul"
baby, all my life is yours
You're my kind of love

My kind of love

Baby, that I want, that I love, yes, I need to know
Oh, baby, it's my time to say that I love you so
Baby, whatever you've done I don't care
My kind of love

You're my kind of love
My kind of love

Baby, yes, I need to know if you love me so
I said: "Baby, what I want you to
care about, you know, it's my soul"
Baby, all my life is yours
You're my kind of love

My kind of love
Kind of love

Baby, whatever you've done I don't care
My kind of love

You're my kind of love
My kind of love
